A MONOGRAPH ON SOME BRITISH DESMIDS (HARDBACK)

Ray Society, United Kingdom, 2010. Hardback. Book Condition: New. 296 x 210 mm. Language: English . Brand New Book. Desmids are freshwater green algae appearing to be a pair of joined cells (hence their name derived from the Greek desmos meaning a bond or chain) but in fact made up of two characteristic half cells (semicells). They have considerable diversity in their external morphology and are the largest of the unicellular plants, allowing them to be easily handled and cultured...

Reviews

These kinds of ebook is almost everything and got me to searching forward and a lot more. It usually does not price excessive. Its been written in an exceedingly basic way and is particularly only following i finished reading through this pdf through which in fact modified me, alter the way i really believe.
