Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.The only comprehensive discussion of the American concealed weapon carry movement that has appeared in print, Professor Patrick traces the emergence and diffusion of this powerful and successful citizens movement. Patrick shows how a new American gun culture consisting largely of political amateurs emerged from the older, traditional and largely apolitical hobby gun culture, and has in turn mobilized, created its own media systems (anti-media) and, by means of what he calls horizontal interpretive communities, overcome deeply entrenched, top-down professional opposition from elites. This new informational sociology has empowered citizens in the most important informational battle of modern times -namely the right to interpret the meaning of reality for themselves, instead of having it interpreted for them by the elite propagandists who do so in self-interested ways at the expense of freedom. Thus the movement to defend the Second Amendment has reenergized the social action schematic underlying the First as well. Rise of the Anti-Media is an indispensable contribution toward an understanding of how new forms of social media are contributing to the empowering of grassroots citizens social action movements. It s a simple, compelling and winning argument that Brian Anse Patrick makes in Rise of the Anti-Media.Patrick shows the true power within the grasp of ordinary Americans when they re driven by the pursuit of freedom. - America s 1st Freedom Brian Anse Patrick s new book deftly explores the emerging cadre of concealed carry license gun owners, an...
