PALLIATIVE CARE NURSING: PRINCIPLES AND EVIDENCE FOR PRACTICE (2ND REVISED EDITION)

Open University Press. Paperback. Book Condition: new. BRAND NEW, Palliative Care Nursing: Principles and Evidence for Practice (2nd Revised edition), Sheila Payne, Jane Seymour, Christine Ingleton, 'It has been a true pleasure to have had the opportunity to peruse the second edition of "Palliative Care Nursing". This book, authored predominately by UK-based experts, succeeds in presenting sophisticated thoughts in readily accessible language! Each chapter begins with a summary of key points, with both classic and new relevant literature well integrated into the text. I have also been particularly impressed with the editors' final chapter, in which they synthesize a number of crucial issues for the future development of palliative care! this second edition makes a significant contribution to both the palliative care literature as well as to nursing literature' - Carol Tishelman, Karolinska Institutet, Stockholm, Sweden. 'I find "Palliative Care Nursing" a very attractive book for nurses but also for other disciplines to learn about nursing and to learn about palliative care. The book is voluminous, informative and educationally well constructed. Frameworks and models in this book will give nurses the opportunity to make up their own process to offer support and be a carer for the incurably ill person and his/her family as a skilled companion. This book gives the possibility for nurses to spread one clear voice about palliative care nursing. Congratulations to all the authors' - Martine De Vlieger, Palliatieve Hulpverlening Antwerpen v.z.w., University of Antwerp, Belgium. 'This book should be compulsory reading for nurses and other health care workers who are involved in the care of people in the final stages of life. It provides a comprehensive account of the major issues (clinical, professional, sociological and political) that confront contemporary palliative care while also offering strategies to move forward. The 'real world' of palliative care is described...
