

## Land Use and the Carbon Cycle: Advances in Integrated Science, Management, and Policy

By Daniel G. Brown, Nancy H. F. French, Bradley C. Reed, Derek T. Robinson

Cambridge University Press. Paperback. Book Condition: new. BRAND NEW, Land Use and the Carbon Cycle: Advances in Integrated Science, Management, and Policy, Daniel G. Brown, Nancy H. F. French, Bradley C. Reed, Derek T. Robinson, As governments and institutions work to ameliorate the effects of anthropogenic CO<sub>2</sub> emissions on global climate, there is an increasing need to understand how land-use and land-cover change is coupled to the carbon cycle, and how land management can be used to mitigate their effects. This book brings an interdisciplinary team of fifty-eight international researchers to share their novel approaches, concepts, theories and knowledge on land use and the carbon cycle. It discusses contemporary theories and approaches combined with state-of-the-art technologies. The central theme is that land use and land management are tightly integrated with the carbon cycle and it is necessary to study these processes as a single natural-human system to improve carbon accounting and mitigate climate change. The book is an invaluable resource for advanced students, researchers, land-use planners and policy makers in natural resources, geography, forestry, agricultural science, ecology, atmospheric science and environmental economics.

### Reviews

*This is an awesome publication i have at any time read. Of course, it is play, still an interesting and amazing literature. You will like just how the author write this book.*

-- Prof. Herta Mann

*This ebook will not be simple to start on reading but very fun to learn. It generally is not going to expense too much. I am very happy to explain how this is the finest book i have read in my very own existence and can be the finest pdf for at any time.*

-- Lavada Cruickshank
