The Troy Book Makers. Paperback. Book Condition: new. BRAND NEW, Beyond Faith: Our Role in Transforming God, William Penick, What is God if he's not perfect, all-knowing, and ever-present? How could Time exist before 'spacetime' did? Why did God stay entirely "on the sidelines" after the Big Bang? What is God learning from us that has transformed him? How will a coming nuclear war bring about the end of organised religion? How will a neuroelectronic "information chip" revolutionise education? And why is the afterlife open equally to saints and sinners alike? These and many other questions are answered by God in a hypothetical dialogue with three 21st century humans, a clergyman, a philosopher, and a scientist, set in the far-distant future. He also talks about his design of the Universe, our own immediate future, and a totally unrecognisable afterlife. Preceding the dialogue is a short essay that explains why we must look beyond faith to our known reality to find the reasons for a vast Universe with intelligent life. This book ends with another short essay contending that this unorthodox picture of a hands-off but synergistic God is much more plausible than the alternatives of either revelation religion or absolute atheism. As a former trial lawyer, the author spent 30 years analysing evidence, drawing logical conclusions, and presenting cogent arguments, which he put to good use in writing this book. A "believer" who cannot find a plausible God among the traditional choices, he has long pondered an alternative God and the other issues addressed here. In addition to spending time with his family and working on two other books, he is now engaged in pursuing his lifelong interest in history and various outdoor activities.
