## INTRODUCTION SYSTEM ENGINEERING - (3RD EDITION)

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 309 Publisher: Electronic Industry Press. Pub. Date :2006-7-1. This book is the automation of engineering colleges. computer. management science and engineering and science courses using professional public systems engineering materials can be used as engineering technology and management training and self-study books. This book includes systems engineering disciplines. objects and tasks. systems engineering. system description and modeling. system architecture model. the static analysis and optimization. system dynamics modeling and analysis of stochastic service systems. network systems. decision-making concepts and methods of analysis. system reliability. system build and integration and so on. Sections according to different requirements and hours of courses. flexible structure composed of different types of materials to meet the requirements of all types of readers. Contents: Chapter 1 System 1.1 System 1.2 and System Engineering Systems Engineering Systems Engineering 1.3 Application 1.4 System Architecture discipline References Summary Exercises Chapter 2 systems engineering approach to systems thinking 2.1 2.2 systems engineering methodology and methods 2.3 Hard Systems Methodology Soft Systems Methodology 2.4 2.5 2.6 system. the further development of methodology to determine the problem and objectives established to generate 2.7 program system and the future construction of environmental prediction 2.9 2.8 Modeling. analysis. evaluation and decision-making and optimization 2.10 2.11 2.12 Human Factors Engineering System information. control Summary References Exercises Chapter 3 describes the system modeling 3.1 with a description of the system to quantify and measure 3.2 3.3 3.4 data management system indicators and qualitative indicators described in 3.5 and 3.6 uncertainties in knowledge representation (a ) - description of random uncertainty 3.7 (b) - 3.8 fuzzy modeling Summary References Exercises Chapter 4 Modeling the structure of the system conceptual model and structure model 4.1...
