

## Transportation: Central ArteryTunnel Project: Rced-95-213r

By -

Bibliogov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 28 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO provided information on the Central ArteryTunnel Project, a federally aided highway project in Boston, Massachusetts, focusing on the projects: (1) status; (2) estimated costs; and (3) financing plans. GAO noted that: (1) the project, which includes plans to build or reconstruct 7.5 miles of urban highways in Boston, is scheduled for completion by 2004; (2) the Massachusetts Department of Highways (MHD) latest 8-billion project estimate excludes over 1 billion of costs that were previously considered as project costs, because MHD is seeking funding from other state and local agencies; (3) inflation, the risky nature of construction work, and MHD inability to achieve its aggressive goals for containing project costs could also increase project costs; and (4) MHD based its project finance plan on 1992 cost estimates and assumptions about the availability of state and federal funding. This item ships from La Vergne, TN. Paperback.

### Reviews

*A superior quality ebook and also the font used was interesting to read through. This is for all who statte there was not a well worth reading. I discovered this publication from my dad and i encouraged this pdf to learn.*

-- **Felix Lehner Jr.**

*It in one of my personal favorite book. It is one of the most incredible ebook i have got go through. You will not feel monotony at at any moment of your own time (that's what catalogues are for relating to if you ask me).*
